Sustainable Development Community

- **Sustainable** is the core feature of all the designs, technologies, products, systems integrated in all the houses and the site, with one single aim for a more sustainable future of human being.
- **Development** stands for all the efforts we are making in cross-disciplinary education, university-industry partnership as well as international cooperation which is becoming even more critical while human being are challenged in the workforce by the new technologies represented by artificial intelligence, etc.
- **Community** is what we would like to present beside the competition—an innovation hub for all of the people participating and supporting SDC, with all the golden memories of laughs and tears during the competition, as well as continuing gatherings of sharing and debating afterwards.

Sustainable Development Community

University President's Forum

Themed with "Boundless Innovation".

University presidents, government officials, major sponsors are invited.

Team Theme Day

Open to all participating schools and sponsors.

Logistic and outreaching supports will be provided.

SDC Talk

Faculty, juries, policy makers, senior professionals are invited.

Teams, schools, or institutes are welcome to co-host.

SDC Global Sustainable Innovation Hub

Build up the network for SDCers to explore further professional and leadership development.

Series of workshops will be held.

SDC Junior Innovation Camp

Provide K-12 students opportunities to explore SDC houses.

To finish STEAM projects and to participate diversified cultural activities.

Q & A

It will be a hard work
But do as best as you can because it gets incredible experience
Don't miss any moment
Good luck
